# *About us*

Nalbourn Pharmatech Pvt. Ltd. Established in the year 2015, We are a prominent pharmaceutical company engrossed in marketing, supply, distribute & wholesale of pharmaceutical products. For benefiting the worldwide humanity suffering from various diseases, we aim to provide our medicines in each nook and corner of the globe at reasonable prices.

These medicines are quality tested as per the medical quality standards to ensure their purity and high effectiveness. Backed by an advanced processing unit, we are able to fulfill the bulk requirements of our clients in the most hassle free manner. Our professionals formulate these medicines under the most hygienic conditions and pack these medicines using premium quality packaging material to retain their purity. Apart from this, the offered range is available in variegated quantities as per the varied needs of our clients. We have gained the confidence of our clients owing to our ethical business policies and client centric approach. Moreover, to make our products perfect in each and every aspect, we go through various quality checking processes.

Our business operations are managed by experienced team, who ensures that all the activities should be conducted as per international quality standards. Our sharp business acumen and strong hold in the market has enabled us to maintain our credible position.

# Our Vision & Mission

## MISSION

To be an integrated Pharmaceutical enterprise of global distinction.

### TO ACHIEVE OUR MISSION, WE WILL:

- Honor our pledge to continuously improve and strive towards the highest quality standards in all aspects of our business.
- Optimize the talents of our employees within a learning organization with an environment that reward commitment, creativity and performance.
- Value teamwork among our employees, business associates and customers as an integral factor of our continued business success.
- Innovate continuously to develop new cutting-edge pharmaceutical and healthcare technologies and products.
- Dedicate ourselves to total customer satisfaction in order to consistently deliver outstanding value to our customer.

### ESSENTIAL TO THIS MISSION IS EXCELLENCE IN

- Intellectual asset creation through discovery, research and development.
- Internationally benchmarked quality and regulatory systems.
- New medical insight through disease specific clinical research
- Customer relationship through outstanding products and services
- Human resource development through training, mentoring and empowering
- Management of research and business partnerships

## VISION

- Our vision is to become a technology based Indian pharmaceutical company & to emerge out as a strong player in the domestic & international market.
- To keep improving the quality of life by offering value added novel products that are technologically innovative, cost-effective and of superior quality, surpassing expectations of customers across the globe
